Jane Do Ha ha ha ha

Charlie Rosenberg Did you seriously say "Gook"??????

John DO! Fuck chinks, can't drive for shit. I told you to sell your cats to mandarin gardens they'll give you a \$/per pound if you have more than one animal. I wanna fuckin drink and chill but I've no where to do these things at. I'm halfway drunk already too....

Charlie Rosenberg wow

Jane Do Ha ha ha that was out of contro. Look and yes I said gook. haha

Submit

Charlie Rosenberg Gook is a terrible word to use.....

Jane Do Well, um so is Nigger but people say that all the time.

John DO!

Why is gook bad? Your not saying being racist is bad you just single out gook? Got a fetish or what?

Who said its out of control? Those fuckers can't drive. And the only reason mandarin is still in buisness is because they smuggle people an...d let them live above the kitchen till relocation.

Jane Do Ha ha ha. Like I said, people say Nigger all the time. Gook, not a big deal...

John DO! Yea try that shit anywhere off the mountain between here and LA. Big bears a sheltered little spawning pool. Half the self proclaimed "badass's" up here would get stomp'd by any 13 year old from the greater LA county area.

[John DO!](#) I worked in a really fucked up part of LA for 9 months last winter.... never went out after the sun went down unless I was in my truck, and for some really fuckin retarded reason I went from, having enough hair to put in a pony tail, to skin head style. Never had that kind of rush buying lunch before... only white guy for mile, and with a shaved head but their was a really good roach coach at the warehouse two blocks away from our job every day at noon... I love food.

[Charlie Rosenberg](#) Just because everyone says it doesn't mean its right.... and in case anyones wondering its the equivalent to saying the N word, and so is chink. And no I'm not singling out 1 word. I think all racism is fucked. But you're right. Big bear is full of it. That's why I moved on with life and got out of that shitty town.

[Besty](#) ALL RACISIM IS BAD. It is disrespectful and disgraceful. Racism has never done any good in our world and it hurts others. Saying "gook" or "chink" or "spik" or "kraut" or "nigger" or anything else that is a put down to any race is terrible. No wonder why some people never get anywhere in life.

[John DO!](#)

They exist for a reason though, most orientals can't drive we run a tow truck in winter guess who we have to tow most? And I was working 28th and griffith in LA for 3/4 a year last winter, this black kid we hired as a laborer.. asked me if... I went to college everytime I used a word with more than 3 syllables, and every story he told consisted of fucking and or some guy he thought was trying to look him in the eyes near a bus stop, apparently if the guy had been trying to look him in the eyes he was gonna get stabbed by a knife he apparently never left home without...

Nigger in the old english dictionary was: lazy black man. Now a days we have more white trash niggers than

[Besty](#) if you look at how many people drive in a particular are or city and break it up by race I'm sure there were more orientals in that area than any other...meaning it is likely you would service them more than others...like in garden grove or parts of la...like in chula vista or parts of san diego you may service more hispanics than any other. Doesn't mean they are all bad drivers just means they have a higher population count in the area

[John DO!](#)

Except they don't have the highest population up here even in the winter season, your assuming all kinds of things. Besides african americans they have the lowest. Hell we have more sweds up here. We also off road a lot know how many times ...I've seen them flipped over? About as often as I see them out there. Or in a brand new vehicle they can't shift, so they stop and pay us to show them? I've

nothing against them personally and mabe your right... mabe just the shitty oriental driver come up here, but the odds of that make it unlikely.

So suckit Besty. Arrogant little guy now a days aren't you.

[Charlie Rosenberg](#) Besty and I aren't arrogant. I won't speak for him, but at least I know that I've grown up and all this racist shit is all child stuff. Joking about races and such is like watching Southpark. If its true, then its true. Who gives a fuck? Its childish to point shit out and make fun of it. Its typical of most big bear people though. That's why me and him were smart enough to get out of that town and grow as people.

[John DO!](#)

You where smart enough to leave and move on to bigger better things? Yet you have time to argue with my "childish" ass? Must be awsem out their in the big scary world. I work construction and em dam good at it I've worked as far across the... country as santa fe, new mexico. Big bear is one of the most kick ass places you could ever hope to live, were close to everything. Anyone who says diffirent needs to wake the fuck up. You don't have to move from big bear to experience the world.

You say who gives a fuck? Apparently you and Besty if you wanna argue about it. Contradict yourself more please, less for me to point out.

I asssume you guys both continued school after 12th? Good for you guys congrats I wish I would of done that sooner like you guys did, but don't for a second think your smarter because of it. I've experienced things through my life style you two never will, and I'm sure that works both ways. Intelligence is relative theirs plenty of shit you can do that I probly woulndnt have a clue about, and vice versa.

Minoritys are normally the most racist people out their, so why's it a crime for me to joke around?

Its not your just uptight.

Btw, "its typical of most big bear people" is the same attitude and "ignorance" your on my ass about.. so hypocrite? I think yes.

[Charlie Rosenberg](#) haha nope. no college actually. I'm just experienced at computers and getting myself out there, so education isn't necessary. I'll stop trying to say facts and crap, because really I suppose I am contradicting myself. I'll just say it bluntly, I do not like people who use racist terms, and in my mind(and others I'm sure), I am better than you. That's putting it bluntly. So maybe I am arrogant, or maybe it's true. Depends who you ask really.
